Work Experience

Programming Instructor

SuperProf Platform - (05/2022 - Present)

As a Programming Instructor on the SuperProf Platform, I have acquired and enhanced crucial teaching and communication skills. My role involved instructing students of various levels and backgrounds, including different states and countries. Additionally, I had the opportunity to explore a variety of programming technologies and develop essential skills, such as assertive communication, direct negotiation with clients, and adaptable pedagogy.

Remote - PT/EN

FullStack Developer

Federal Regional Court of the 5th Region - (02/2023 - 09/2024)

As a IT Resident, my experience at the Federal Regional Court of the 5th Region (TRF5) has been an enriching and challenging journey. In my role as a software developer, I have played a crucial part in the team, contributing to the development of technological solutions that support the legal system.

Natal/RN - Recife/PE, Brazil

FullStack Developer - Internship

Quark Tecnologia - QuarkClinic - (02/2021 - 12/2022)

As a FullStack intern at Quark Tecnologia, I worked on the QuarkClinic platform, involving various projects that encompassed technologies like Angular, Vue.js, Spring, Groovy, and Kotlin. My responsibilities included troubleshooting in production, internal validation, feature enhancement, and code refactoring.

Natal/RN, Brazil

Technical Support Scholar

Center for Biosciences - UFRN - (02/2018 - 02/2021)

As a technical support scholar at the Center for Biosciences, I developed technical skills in computer and operating system maintenance, enhancing problem-solving and communication. I learned time management, accurate documentation, and teamwork to ensure the efficient operation of systems and equipment.
